ELEVATE PLATFORM LIFTS

ECHO 100

Offering an ideal wheelchair access solution into your home. Giving safe and smooth travel up to one metre.

If multiple steps hinder wheelchair access to your home or garden, the versatile Echo 100 is the perfect alternative when installing a ramp isn't possible. You can ensure uninterrupted access without inconveniencing other household members, allowing everyone to continue using the same entrance.

Features

- Versatile design
- Cost effective
- Internal and external use
- Quick installation within a day
- Hydraulic drive scissor mechanism
- Design and sizes tailored to suit your requirements
- Versatile – up to one metre rise with bridging steps for up to three steps
- Can easily be re-sited
- Durable for outdoor use
- Self-contained unit which is easy and quick to install, typically within a day
- Allows the rest of the family to continue using the same entrance
